The Parent's Pledge

As a parent, I hereby give my pledge of commitment to take personal responsibility to create a safe cyber space environment, for my child's healthy growth, well-being and safety while guiding my child in using the internet constructively for a more pleasant and enjoyable experience.

To ensure this aim is achieved, I pledge to:

1. Know my child's online habits- such as the web or mobile applications my child uses and to learn how to use the applications in order to better communicate with my child for healthy rapport to be established.
2. Set the internet or mobile device usage rules at home to better monitor my child's internet access and to explain to my child about these rules so that they are aware of my expectations.
3. Be a good role model of how to use internet in responsible ways by demonstrating proper technology etiquettes- avoid texting or checking social media account and spend 'unconnected' quality family time with my child.
